Sidey were delighted to provide a 'facia' lift to the stunning mural in Uist Street created by Frank Carty of SGW3, a community art movement based in Finnistone.

Installation team, Mario & Dave, replaced the rotten plywood above the mural with maintenance free black uPVC, while Community Benefits Manager, Donna, planted a pollinator garden of lavender, buddleia and erysimum.

Sidey are proud to have left a small corner of Govan a little brighter for the local community.
