

# REPAIR! REUSE! RECYCLE!

North Lanarkshire Council | Motherwell

Sidey achieved 0% manufacturing waste in 2015 and have continually strived to reduce our carbon footprint ever since. We were excited to discover Lanarkshire Association for Mental Health (LAMH) Recycle Ltd, a social enterprise providing training and employment opportunities within a supportive environment, who are tackling the relationship between poor mental health and unemployment through recycling!

Beginning in 2018, Sidey gift £100 each month to aid services LAMH provide to the Motherwell community and beyond. Our donations of redundant IT equipment have been used on computing & pc building courses, then provided free of charge for trainees to take home.

As Scotland's strongest fenestration company, we take our green responsibilities seriously and are proud to support an organisation like LAMH Recycle Ltd.
