

ROUTES YOUNG PEOPLE PROJECT

Creating Life Long Memories

It can be isolating for a young person living in a home with addiction, particularly without the respite of school. Scottish Families Affected by Alcohol & Drugs Routes project encourages young people to experience new things and strive for a positive future.

David Wilkie at **West Dunbartonshire Council** spotted the connection to Sidey's community benefits agenda of *Raising Attainment Levels for your Young People* and made an introduction, which led to Sidey donating £1,000.

SFAD funded an excursion to the Dumfries Youth Beatz Music festival, including transport from Clydebank, festival make-up, a large picnic, hot foot at the end of the night, funfair rides and even a clothes swap party prior!

This is what working together to benefit local communities *really* looks and sounds like.

“Pinch me am I really here? I have never danced and laughed this much”

“Did you see the cool outfits I got! Some even still have tags on”

“OMG Ella Henderson! This has been the best day ever”
